INIS to distribute Nuclear Shields B.V. Products

IDAHO FALLS, IDAHO, May 1, 2024. International Isotopes Inc. (OTCQB: INIS) (“International Isotopes,” “INIS” or the “Company”) is excited to announce that it has entered into a distribution agreement with Nuclear Shields B.V. to distribute their products in the United States.

Nuclear Shields designs and manufactures a wide range of radiation shielding products for nuclear medicine, radiology, nuclear imaging and nuclear energy. Nuclear Shields is part of the Van Mullekom Group which was founded in The Netherlands in 1978. The company is privately owned and has factories and offices in the USA, Australia and The Netherlands.

Shahe Bagerdjian, President & CEO of INIS commented, “We are really excited to offer Nuclear Shields’ products to our customers. Their shielding solutions combine high quality engineering and eye-catching designs. Their complete portfolio of products are an excellent fit with our own diverse radioisotope offerings.”

Nick van Mullekom, head of sale for Nuclear Shields BV added, “We are pleased to note the positive collaboration with our new distributor International Isotopes/Radqual, who has exhibited considerable expertise in nuclear medicine along with a commendable level of service. We look forward to a successful partnership built on mutual trust and confidence.”
